

OnsiteTM Customer Data & Privacy Practices

effective December 1, 2016

We may collect information that is transmitted and disclosed through the Onsite mobile web app (MWA).

We use this information, though do NOT share it with our third-party service partners, to improve customer experience and engage in marketing programs. We do not convey, transmit, or sell your information to third parties.

We employ technical and physical safeguards to maintain the confidentiality of collected information.

By downloading and using this mobile web app, you agree to our collection and use of this information. You may limit the information collected through the MWA by not creating a profile, or by limiting the information that you enter into the profile fields. You may also do this by contacting CDIS Onsite, Inc., or its registered licensees, as detailed below.
